| 4  |   | Module No   | Module name | Scenario_ID | Scenario_Name                 | Scenario_Description   |   |   |   |   |   |   |   |   |   |   |
| 5  |   | 1           |             | S001        | Valid Login                   | Verify that users can successfully log in using valid credentials (username and password).                     |   |   |   |   |   |   |   |   |   |   |
| 6  |   |             |             | S002        | Invalid Username              | Ensure an error message appears when an invalid username is entered.   |   |   |   |   |   |   |   |   |   |   |
| 7  |   |             |             | S003        | Invalid Password              | Verify that access is denied and an error is shown when a valid username is paired with an incorrect password. |   |   |   |   |   |   |   |   |   |   |
| 8  |   |             |             | S004        | Empty Username and Password   | Confirm that the system prompts the user to fill in both fields when left empty.                               |   |   |   |   |   |   |   |   |   |   |
| 9  |   | User Login  |             | S005        | Password Recovery Link        | Ensure that the "Forgot Password?" link directs users to the password recovery page.                           |   |   |   |   |   |   |   |   |   |   |
| 10 |   |             |             | S006        | Remember Me Functionality     | Verify that checking the "Remember Me" option retains the username on subsequent visits.                       |   |   |   |   |   |   |   |   |   |   |
| 11 |   |             |             | S007        | Account Lockout               | Ensure that the account is temporarily locked after a specified number of failed login attempts.               |   |   |   |   |   |   |   |   |   |   |
| 12 |   |             |             | S008        | Successful Logout             | Verify that users can log out successfully and are redirected to the login page.                               |   |   |   |   |   |   |   |   |   |   |
| 13 |   |             |             | S009        | Login with Special Characters | Ensure that the system accepts usernames and passwords with special characters.                                |   |   |   |   |   |   |   |   |   |   |
| 14 |   |             |             | S010        | Session Timeout               | Verify that users are logged out automatically after a specified period of inactivity.                         |   |   |   |   |   |   |   |   |   |   |
| 15 |   | 2           |             | S011        | Admin Valid Login             | Verify that admin users can successfully log in using valid credentials.                                       |   |   |   |   |   |   |   |   |   |   |
| 16 |   |             |             | S012        | Admin Invalid Username        | Ensure an error message appears when an invalid admin username is entered.                                     |   |   |   |   |   |   |   |   |   |   |
| 17 |   |             |             | S013        | Admin Invalid Password        | Verify that access is denied for admin users when an incorrect password is used.                               |   |   |   |   |   |   |   |   |   |   |
| 18 |   |             |             | S014        | Admin Empty Fields            | Confirm that the system prompts the admin to fill in both fields when left empty.                              |   |   |   |   |   |   |   |   |   |   |
| 19 |   | Admin Login |             | S015        | Admin Password Recovery Link  | Ensure that the "Forgot Password?" link directs admin users to the password recovery page.                     |   |   |   |   |   |   |   |   |   |   |
| 20 |   |             |             | S016        | Remember Me Functionality     | Verify that checking the "Remember Me" option retains the admin username on subsequent visits.                 |   |   |   |   |   |   |   |   |   |   |
| 21 |   |             |             | S017        | Admin Account Lockout         | Ensure the admin account is temporarily locked after a specified number of failed login attempts.              |   |   |   |   |   |   |   |   |   |   |
| 22 |   |             |             | S018        | Admin Login Audit Trail       | Verify that successful and failed login attempts are logged for auditing purposes.                             |   |   |   |   |   |   |   |   |   |   |
| 23 |   |             |             | S020        | Admin Session Timeout         | Ensure that admin users are logged out automatically after a specified period of inactivity.                   |   |   |   |   |   |   |   |   |   |   |
| 24 |   |             |             |             |                               |  |   |   |   |   |   |   |   |   |   |   |
